

COAL DIRECTOR ASSUMES DUTIES

W. E. MEYER, FEDERAL FUEL ADMINISTRATOR, OPENS OFFICE IN STATE CAPITOL.

APPOINT ACTIVE ADVISORS

One Man Will Be Appointed in Each County To Assist in Conserving Coal Supply and Prevent Price Boosting.

Nashville.—W. E. Meyer, federal fuel administrator for Tennessee, has arrived from Washington and has opened offices at the state capitol. He will appoint a committee of 12 citizens as an advisory fuel committee, who will name one man in each county to act as chairman of a local fuel committee.

Administrator Meyer says the government has information from all the mines in the state as to output, contracts, supplies, etc., and that there is sufficient coal for all purposes. The government is to supply coal to those who need it, to prevent hoarding, and to prevent unreasonable prices to consumers. Every complaint will be investigated. The government has the right to commandeer coal when it is necessary to maintain equitable distribution of supplies in the state.

State Officials in New Quarters.
The board of control now occupies the new capitol annex, formerly the O'Bryan house, at Seventh avenue and Cedar street, Nashville. The department has three large rooms on the first floor. The highway department and the state board of charities and corrections occupy the second floor.

The second new annex, directly opposite, at Seventh avenue and Cedar street, is occupied by the food and drug department, the insurance department and the shop and factory inspection department. This building was formerly known as the Dr. Duke house.

The annex at Sixth avenue and Cedar street is occupied by the railroad commission, the banking department, the department of fire prevention and Dr. Olin West, state director of rural sanitation.

The Sixth avenue annex is occupied by the pension department, the department of geological survey, the mineral department and the state dairy commission.

State Demonstrators Meet.

Home demonstration agents, representing all counties of Tennessee, held their annual session at the University of Tennessee, bringing tidings of good news from all sections of how the people are assisting the government in conserving to win the big war.

Address Soldier Letters Correctly.

Attention to the following facts will avoid much confusion and delay in the delivery of letters to the Tennessee soldiers. Recent changes in the different units has caused some confusion and considerable delay has been reported by the authorities in delivering mail to the boys:

The headquarters company of the First Tennessee has retained that name.

The sanitary detachment and the supply company also retain the same name as they did in the First Tennessee.

Companies A and B of the former First Tennessee have been consolidated and have become Battery A.

Companies C and D have become Battery B.

Companies E and F have become Battery C.

Companies G and H have become Battery D.

Companies I and K have become Battery E.

Companies L and M have become Battery F.

The mail for all battery or company officers should be marked with the battery or company to which they belong. Simply to direct mail intended for field and staff officers to the 115th field artillery will be sufficient.

A model form of address is as follows:

John Smith,
Battery A,
115th Field Artillery,
Camp Sevier,
Greenville, S. C.

Advantages of Japanese Clover.

The advantages of using Japanese clover on poor spots on the farm where red clover might possibly be desired, but would not grow, is being shown by J. C. McAmis, specialist in agronomy of the division of extension, University of Tennessee. The point is made that on poorer soils results may be expected with Japanese clover, but may be hastened by seeding the crop rather than by waiting for it to volunteer.

TEUTONS CROSS THE TAGLIAMENTO

AUSTRO-GERMANS SEIZE SIX THOUSAND MEN AND MANY GUNS IN "PUSH."

Field Marshal von Mackensen Utilized Lesson of the Marne—Stand Soon To Be Made By the Romans.

Western Newspaper Union News Service. London.—The Teutons have crossed the Tagliamento.

"North of Pinzano" the Rome War Office admitted today, "the enemy who succeeded in bringing forces to right bank, intensified his pressure on our left wing." Pinzano lies 16 miles northwest of Udine and on the northern reaches of the river. "German and Austro-Hungarian divisions, announced Berlin, 'have crossed the middle Tagliamento and are advancing westward.' The statement adds 6,000 prisoners were taken.

The discrepancy in the two statements regarding the scene of the crossing gives rise to the question as to whether the Teutons forded the river at two different points, at Pinzano and somewhere "on the middle Tagliamento."

Military observers here consider it more probable, however, that the Germans, in referring to the "middle" course, counted the whole length of the river from where it rises in the heart of the Carnic Alps down to the Adriatic Sea.

Field Marshal von Mackensen, it appears, utilized the lesson of the Marne. Instead of exhausting his armies, as did his colleagues in France three years ago, by forced marches (25 miles a day), he gave his men a thorough rest, meanwhile bringing up his heavy artillery and perfecting his communications to the rear, across mountain passes through which he swept two weeks ago. But to Cadorna the three days' delay appears more than likely to have proved sufficient to escape the trap.

FIVE KILLED; TWO MISSING

Forty-seven Injured When Explosion Wrecks Liquid Tire Powder Plant—German Agents Suspected.

New Kensington, Pa.—Five men are known to have been killed and search is being made for the bodies of two other men believed to have met death; another is reported dying and 47 workmen were burned, 17 seriously, in an explosion and fire which destroyed the bronze powder plant of the United States Aluminum Company, a subsidiary of the Aluminum Company of America here. In a statement issued R. A. Hunt, General Superintendent of the United States Aluminum Company, said: "There is a possibility that German agents are responsible for the fire." It was stated that an investigation of the origin of the fire would be started at once. The plant destroyed, employing about 300 men, is said to have been engaged in the making of materials for liquid fire for an allied Government.

Prices Approved By President.
Washington.—Maximum prices on cold rolled steel, pipe, scrap sheets, wire and tinplate, agreed on by the War Industries Board and steel producers, were approved by President Wilson. The figures are based on those named in recent arrangement made by the board with producers setting basic prices on steel and iron and the materials entering into their manufacture. The prices fixed will apply to all transactions, Government, allied and public, and are subject to revision January 1, 1918.

Lake Steamers in Collision.
Detroit, Mich.—The steamer James S. Dunham, down-bound with iron ore, was sunk in a collision with the steamer Robert Fulton, up-bound light, off Grassy Island, about 10 miles down the Detroit River from here. The Fulton remained afloat and apparently was not badly damaged. Peter Tumulty, wheelsman on the Dunham, was killed, and the mate, name unknown, injured.

YOU NEED NOT SUFFER WITH BACKACHE AND RHEUMATISM

For centuries GOLD MEDAL Haarlem Oil has been a standard household remedy for kidney, liver, bladder and stomach trouble, and all diseases connected with the urinary organs. The kidneys and bladder are the most important organs of the body. They are the filters, the purifiers of your blood. If the poisons which enter your system through the blood and stomach are not entirely thrown out by the kidneys and bladder you are doomed.

Weariness, sleeplessness, nervousness, despondency, backache, stomach trouble, headache, pain in loins, and lower abdomen, gall-stones, gravel, difficulty when urinating, cloudy and bloody urine, rheumatism, sciatica, lumbago, all warn you to look after your kidneys and bladder. GOLD MEDAL Haarlem Oil Capsules are what you need.

They are not a "patent medicine" nor a "new discovery." For 200 years they

have been a standard household remedy. They are the pure, original imported Haarlem Oil your great-grandmother used, and are perfectly harmless. The healing, soothing oil soaks into the cells and lining of the kidneys and through the bladder, driving out the poisonous germs. New life, fresh strength and health will come as you continue this treatment. When completely restored to your usual vigor, continue taking a capsule or two each day. They will keep you in condition and prevent a return of the disease.

Do not delay a minute. Delays are especially dangerous in kidney and bladder trouble. All reliable druggists sell GOLD MEDAL Haarlem Oil Capsules. They will refund the money if not as represented. In three sizes, sealed packages. Ask for the original imported GOLD MEDAL. Accept no substitutes.

"Blue" and Worried?

"Blue" worried, half-sick people should find out the cause of their troubles. Often it is merely faulty kidney action, which allows the blood to get loaded up with poisons that irritate the nerves. Backache, headaches, dizziness and annoying bladder troubles are added proofs that the kidneys need help. Use Doan's Kidney Pills. Thousands thank them for relief from just such troubles.

An Ohio Case

Mrs. James B. Myer, "Every Picture Tells a Story" 425 N. Fifth St., Upper Sandusky, O., says: "My feet and limbs were swollen to several times their usual size and for days at a time I couldn't walk. My knee joints became so stiff I couldn't bend them. A friend then came to me and advised me to use Doan's Kidney Pills. After I had used two boxes of Doan's I felt relief, and the swellings had gone down somewhat. I continued taking them and I used fourteen boxes in all. I then felt like a different person and after a few months I was entirely cured."
